1. Introduction

This document provides a description of the installation procedure of the IUCLID 5.2 CSR tool plug-in.

The Chemical Safety Report (CSR) generator plug-in (CSR plug-in) captures information from IUCLID 5 records and applies rules that enable the automatic generation of a CSR rtf or xml document, which may serve as starter for the CSR.

A more detailed User Manual is available for this tool on the IUCLID website.

2. How to download the CSR tool Plug-in

Open your internet browser, for example Internet Explorer and follow the steps here below reported:

- Go to the IUCLID 5 download website <http://iuclid.eu>;
- Log into the restricted area of the download website using your previously created account and use your username and password;
- In the “Download” section select “Version 5.2.0”;
- Then go to the subsection ‘CSR Plugin’
- Click “Download the installation package”;
- Select the “I acknowledge” check box and then click “Next” button;
- In order to download the software you have to accept the license agreement. Read carefully the Licence Agreement and, if you agree, accept it selecting both the “I accept” and “I am entitled to sign this License agreement” checkboxes. Click the “Next” button. Select “please click here” to start the download. Select “Save” to save the file to your computer;
- Save the **iuclid5_plugin_csr_2010-04-23.zip** file to your computer.
- Extract the CSR tool plug-in **eu.echa.iuclid.plugin.csr.zip** from **iuclid5_plugin_csr_2010-04-23.zip** file that you downloaded. Use **eu.echa.iuclid.plugin.csr.zip** file for the rest of the installation (i.e. do not extract the content of this zip file).
- To complete the installation, follow the “Standalone installation” or the “Distributed installation” section of this document.

3. Installation instructions

Pre-condition: Install IUCLID release 5.2

The plugin is based on a client side ZIP file called:

- eu.echa.iuclid.plugin.csr.zip

The installation of the plugin depends on your IUCLID 5 installation:

- workstation / stand-alone version or
- distributed version

3.1. Workstation / Standalone Installation

If IUCLID 5 is running, save your work and close the application.

- Copy the file “**eu.echa.iuclid.plugin.csr.zip**” into the **plugins\client** folder you find inside the **IUCLID5-folder**.

If you have installed the IUCLID 5 stand-alone software in the folder:

C:\IUCLID5

You will find the sub-folder:

C:\IUCLID5\plugins\client (folder for the client side plugins)

To activate the plugin it will be sufficient to copy the file into the specific folder (see examples below in the table).

Important:

Do not extract the ZIP files!

Depending on your computer setting the file name may be displayed without extension (.zip).

Copy the file	eu.echa.iuclid.plugin.csr.zip
into the folder	<IUCLID5-folder>\plugins\client
Sample	C:\IUCLID5\plugins\client\ eu.echa.iuclid.plugin.csr.zip
Hint	In the folder you will already find files like: clientExtensionPointRootPlugin.zip eu.echa.iuclid.plugin.helpsystemEN.zip eu.echa.iuclid.plugin.xform.zip

- Restart IUCLID 5.
- The CSR tool plug-in is installed and ready to use.

Tip:

If the plugin is no longer required, the files can be removed from the folders. The plugin will disappear from the IUCLID 5 application.

3.2. Distributed Installation

The server application does not need to be stopped for this installation.

On the IUCLID 5 application server:

- Copy the file **eu.echa.iuclid.plugin.csr.zip** into the ...**i5clientPlugins\remotePlugins** folder, for example **C:\Program Files\apache-tomcat-5.5.20\webapps\i5server\i5clientPlugins\remotePlugins**

You will find the following sub-folder on your IUCLID 5 application server:

...i5clientPlugins\remotePlugins (folder for the client side plugins)

Important:

Do not extract the ZIP files!

Depending on your computer setting the file name may be displayed without extension (.zip).

To activate the plugin it will be sufficient to copy the file into the specific folder (see samples below in the table).

Copy the file	eu.echa.iuclid.plugin.csr.zip
into the folder	<IUCLID5 WebApp-folder> \i5clientPlugins\remotePlugins
Sample	C:\Program Files\apache-tomcat-5.5.20\webapps\i5server\i5clientPlugins\remotePlugins\ eu.echa.iuclid.plugin.csr.zip
Hint	In the folder you will already find files like: clientExtensionPointRootPlugin.zip eu.echa.iuclid.plugin.helpsystemEN.zip eu.echa.iuclid.plugin.xform.zip

- Restart IUCLID 5 client application. The server does not need to be restarted.

The new plug-in will only be accessible after the client application has been restarted.

Tip:

If the plugin is no longer required, the files can be removed from the folders. The plugin will disappear from the IUCLID 5 application.

3.3. Checking for a Successful Installation

If the installation was successful, the CSR tool plug-in should be added to the task panel, the toolbar and also the menu (“Plugins | CSR tool”).

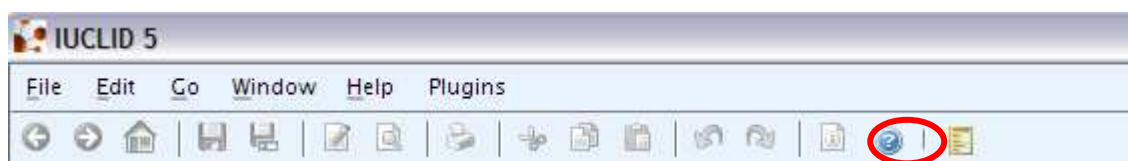

4. Create a CSR with IUCLID

Step1: start IUCLID and login. The plug-in will appear on the task panel.

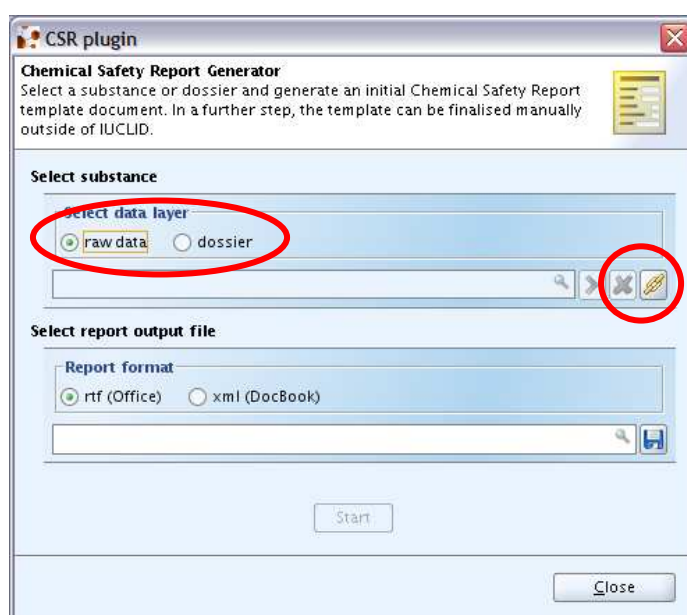

Note: Additionally a context-menu extension exists on the substance and dossier result lists so the plugin can be run on a substance or dossier by performing a right-click on the entry in the result list. This will pre select the topic for the CSR generation.

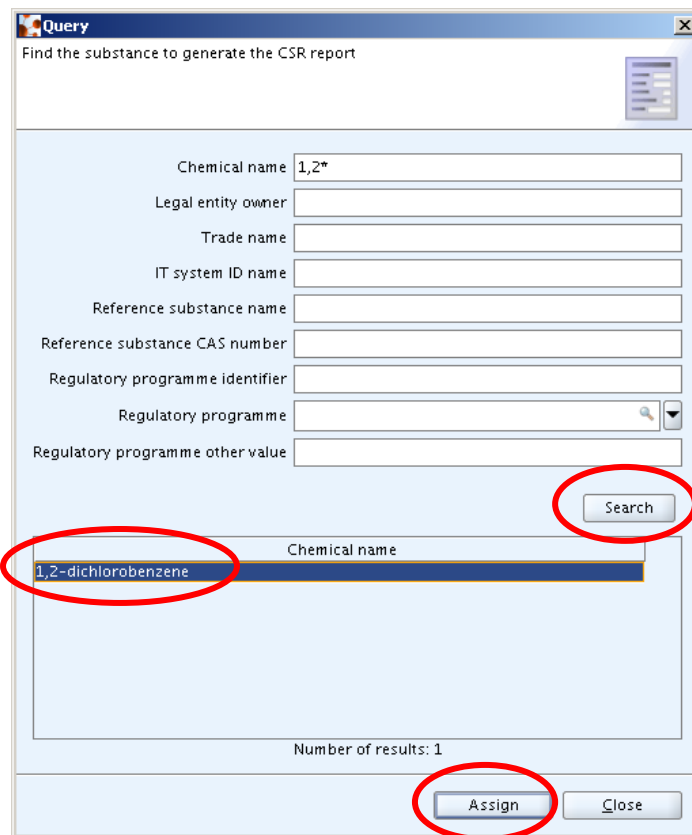

Start alternative: You can also use the task bar button to launch the plugin.

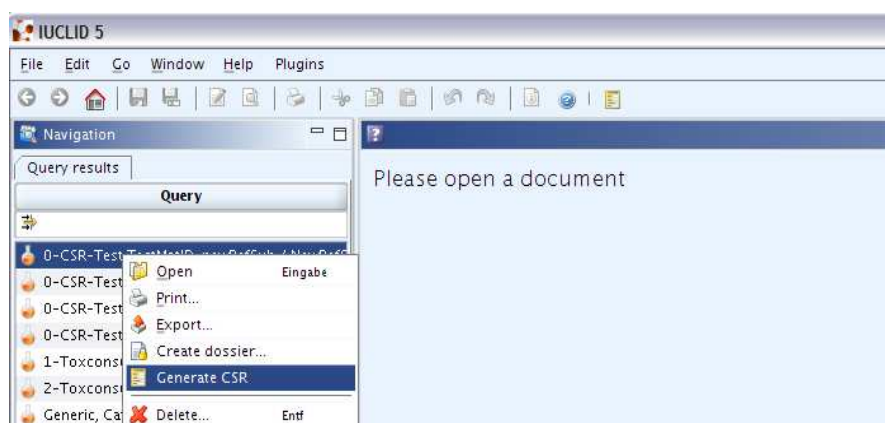

Step 2: launch the plug-in by clicking on 'Run' or on the plug-in icon and select the source of data you want to use as a basis for your Chemical Safety Report (raw data / substance or dossier data):

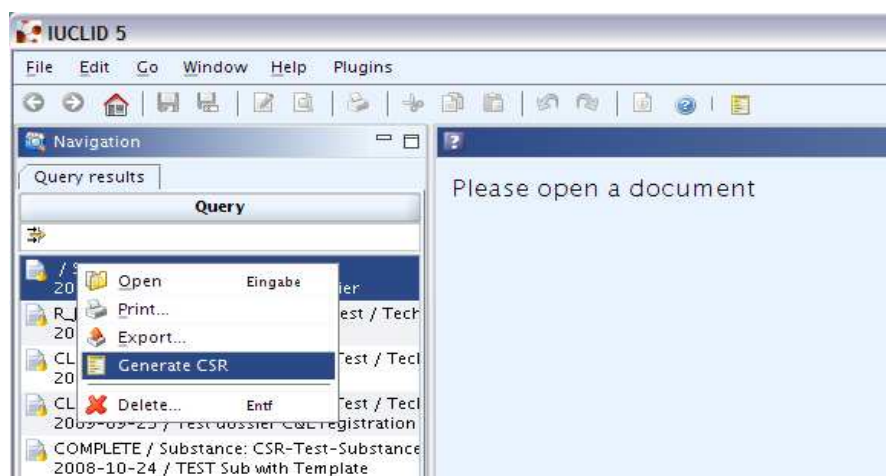

Step 3: select a substance or a dossier (depending on the source of data selected at the previous step):

As an alternative to steps 2 and 3 you can also open a substance or dossier result list (i.e. Substance --> Update or Dossier -->View) and right-click on the respective entry. Example for a substance dataset:

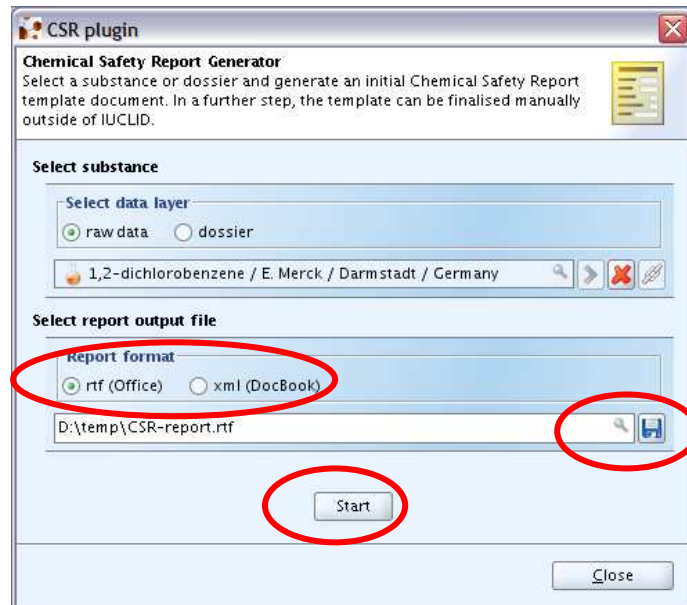

Example for a dossier:

As result the entry and the respective data layer will be pre selected in the tool:

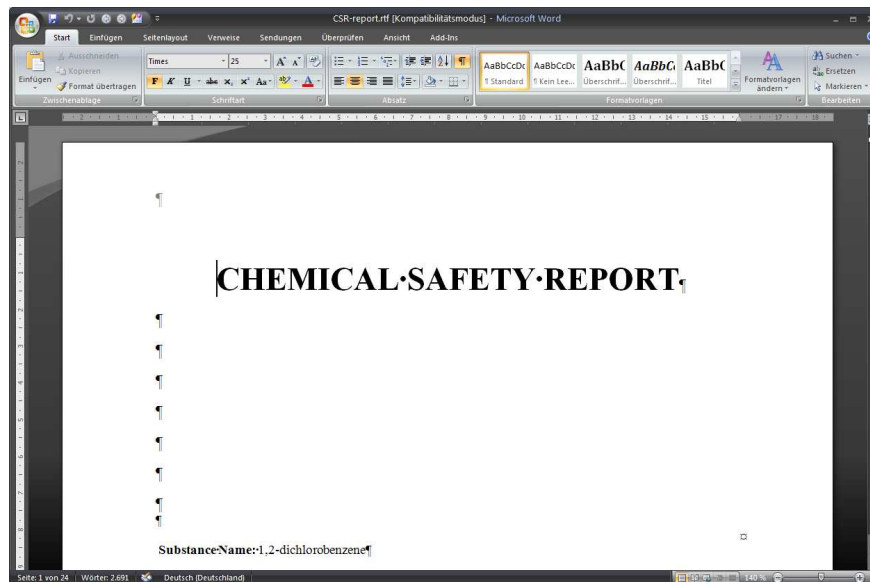

Step 4: select RTF as the target format, enter a valid file name and press “Start” to generate the CSR report.

The IUCLID client will be blocked during the report generation.

As result you will find an RTF file in the specified output folder. Load this file with MS Word for example. Press “CTRL + a” to select the whole document content and press F9 afterwards to update page number references.

5. Documentation Available

The installation document for the CSR tool plug-in can be obtained from the IUCLID 5 download website: <http://iuclid.eu> under the Get Support \ Documentation section.

5.1. Licensing

The License Agreement acknowledged during the download of the original software applies to this release, according to the relevant paragraph:

"Software" shall mean a computer software system named "IUCLID 5" to collect, store and exchange with others data on chemical substances, their properties, their producers or importers and related data and meta data. The use of the Software is not restricted to a specific national, regional or international legal requirement. The Software means also all of the contents of the files (provided either by electronic download, on physical media or any other method of distribution), disk(s), CD-ROM(s) or other media with which this Agreement is provided, **as well as any updated versions of the above-mentioned computer software.**

5.2. Known Issues

For known issues please refer to our [Frequently Asked Questions](http://iuclid.eu) on the IUCLID 5 website (<http://iuclid.eu>).
